and vegan  
origin.

# what's inside?

These ingredients combine to offer a natural, gentle, and effective solution for protecting pets from ticks and fleas, while soothing their skin and leaving them refreshed. This shampoo is best suitable for both furry and non furry pets. Its natural and mild ingredients help to maintain moisture and oil of the skin while cleaning and removing impurities microbes, Ticks and fleas from the skin.

### Neem (Azadirachta indica)

Neem is a powerful natural insect repellent. Its compounds disrupt the life cycle of ticks and fleas, preventing them from breeding and multiplying on the skin of your pets.

### Turmeric (Curcuma longa)

Turmeric contains anti-inflammatory and antimicrobial properties. It helps to soothe irritated skin and helps to heal any wounds or bites caused by fleas and ticks.

### Vacha (Acorus calamus)

Vacha has insecticidal properties that helps to eliminate ticks and fleas while promoting skin health and preventing re-infestation.

### Eucalyptus oil

Eucalyptus oil acts as a natural repellent for flea and tick, discouraging parasites from staying on your pet's fur. Its refreshing scent also helps to deodorize.

### Sarpunkha (Tephrosia purpurea)

Sarpunkha has potent antiseptic and anti-inflammatory properties. It helps to heal skin affected by flea and tick bites and reduces itching and irritation.

### Peppermint Oil

Peppermint oil cools and soothes itchy skin while also acting as a deterrent to fleas and ticks, making your pet's fur less appealing to these pests.

### Oatmeal

Oatmeal soothes and moisturizes dry, itchy, or inflamed skin caused by flea and tick bites. It also helps maintain the natural oils in your pet's coat.

### Rosemary

Rosemary acts as a natural insect repellent and has antimicrobial properties. It helps keep ticks and fleas away while promoting a healthy, shiny coat.

### How to use

Apply to wet fur, lather gently, and leave for 5-10 minutes. Rinse thoroughly. Use weekly for best results.
