we all want our furry
friends to feel Fresh
and comfortable,
that's where
Paw Smooth Comes in.** 

99% ingredients
are of natural
and vegan
origin.

Paw Smooth™ 

what's inside?

“Complete Oral Care for Pets with Paw Smooth Toothpaste – Fresh Breath, Healthy Gums, Strong Teeth.”

Paw Smooth Pet Toothpaste is designed to provide complete oral hygiene for your pet. It effectively removes plaque and tartar, freshens breath, and promotes gum health. The natural, vet-formulated ingredients ensure gentle cleaning, while keeping your pet's teeth strong and their gums soothed, for a happy and healthy smile every day!

Peppermint Extract

Naturally freshens your pet's breath while providing a cooling sensation. Its antibacterial properties help reduce mouth bacteria, leaving your pet's mouth feeling fresh.

Turmeric

Known for its anti-inflammatory and antioxidant properties, turmeric helps soothe irritated gums, reduce redness, and support overall gum health.

Neem

A powerful antibacterial and antifungal agent, neem combats harmful bacteria and helps prevent plaque buildup, promoting healthier gums and teeth.

Kelp

Rich in minerals like calcium and iodine, kelp helps strengthen your pet's teeth and reduces the risk of tartar formation, supporting long-term dental health.

Coconut

Naturally fights bacteria and moisturizes gums, helping prevent infections while maintaining oral health. Its soothing properties also calm sensitive gums.

Trisodium Phosphate

A gentle, safe cleaning agent that helps remove plaque and whitens teeth, ensuring your pet's smile stays bright and clean.

Hydrated Silica

A mild abrasive that polishes teeth without damaging enamel, removing surface stains and helping to keep your pet's teeth shiny and clean.

Zinc Chloride

Effectively neutralizes bad breath by controlling the bacteria that cause odors, while also helping to fight plaque and maintain fresh oral hygiene.

How to use

Reward Your Dog: Give your dog a treat or praise them after brushing to make the experience positive.

Regular Brushing:

Try to brush your dog's teeth at least 2-3 times a week, though daily brushing is ideal.
